

ALPHA OMEGA

CABERNET SAUVIGNON
OAKVILLE
Napa Valley
2022

VINTAGE NOTES

Significant rain in December and relatively dry, mild conditions through March created an early bud break. Alternating periods of warm and cool weather after March led to steady summer conditions that prevailed until the first week of September when temperatures rose significantly. Cooler weather after the heat spell allowed many of our hillside and south valley vineyards to recover from the heat and were harvested in great condition. Overall quality is excellent with wines showing a broad spectrum of aromas and flavors.

VINEYARD SOURCES

Originally a water refueling stop for the railroad that connected Vallejo to Calistoga, Oakville was named for its dense groves of valley oaks. Situated in the heart of Napa Valley, Oakville has an ideal combination of warm days and cool evenings. The deep, rich soils on the west side near Highway 29 give way to rockier, volcanic soils on the east side near Silverado Trail. In 2022, we used grapes from some of our top vineyards primarily on the eastern side of Oakville AVA.
